

Naples Bay Hotel Reveals Major Renovations

May, 2019

Naples, Florida – The Cove Inn on Naples Bay, one of only a few waterfront hotels in historic Naples Bay, Florida, is delighted to welcome guests this season to reveal a completely new, refreshed look.

The renovations started after Hurricane Irma struck in September 2017. During its closure, the popular onsite Coffee Shoppe and Chickee Bar remained open to the public; now, the entire hotel is open to indulge guests in a new experience at The Cove Inn on Naples Bay.

As part of the renovations, the lobby and property exterior have been updated with cool coastal colors. There are also new entry doors and railings, new roofing and signage, and improvements made to many of the 89 individually designed rooms and suites. The Chickee Bar has also been completely rebuilt.
